The Urantia Book Part IV: Jesus And The 12 Apostles - Book 2

Synopsis

Jesus and the 12 Apostles is the second of 3 Audio Books on The Life and Teachings of Jesus and is taken from a larger work entitled The Urantia Book. This audio book on CD and DVD is exquisitely read and offers the superb account of Jesus' public ministry from the time of his baptism by John to his choosing of the twelve apostles. This volume contains a fascinating and detailed psychological profile on each of the twelve apostles. It features how Jesus ordained and trained these twelve common men for the work that would change not only their lives but the course of human history. Experiencing this narration is second only to being an apostle yourself. If you love Jesus and have always wanted to know more about him, you will thrill to hear this amazing account of his life and relationship with these twelve men of destiny. Please look also for Book 1 - Jesus' Early Life and Book 3 - Jesus' Healings, Parables and Ministry.

Customer Reviews

The Most Important Spiritual Book since the Bible! It was in 1969 at age 19 that I first encountered The Urantia Book. A number of friends had praised its teachings on evolution, and that Christmas a girlfriend gave it to me. I was surprised at its daunting size: 2,097 pages long. What confounded me the most was that the book contained 875 pages on the life and teachings of Jesus, including the missing years. How strange and intriguing, I thought. Dinosaurs and Jesus all in one text. Initially, I found the foreword to The Urantia Book utterly confusing but kept reading anyway. What followed was a fascinating intellectual and spiritual adventure that shook up everything I thought I knew. The first two parts of the book describe God, the Trinity, the organization and structure of the universe,

life on other worlds, life after death, angels and other personalities, and Heaven. When I read Part Three, it was like winning the lottery for me. This section deals with the origin and history of our world, starting from the origin of our sun over six billion years ago and ending with the birth of Jesus. From ice ages to saber tooth tigers, from the first human family to the evolution of modern government, from the story of Adam and Eve to the birth of prayer, The Urantia Book presented a logical story of physical and social evolution. It was the logical and smart bridge between science and religion that I had been searching for. The fourth section of the book is the most important Jesus book since the Bible. It recounts the magnificent life and teachings of Jesus. Before I read The Urantia Book, I loved the story of Jesus in the New Testament, but always felt disappointed that it only covered a few years of his life.
