Have not read them all yet and will update as I finish....This is different form most books I have read and I wasn't sure what to expect. It was very interesting and easy to get into. Concubine - Angel is a clone on a space station. She spends her days being tested and her nights either dancing in zero gravity or with her secret lover. Then the Gran show up early and spot her. Their Captain decides he has to have her, that she is something special. Can she hide long enough for the Gran to give up and leave? There are a couple of twists I wasn't expecting, and I don't want to ruin them for anyone. I really enjoyed this and look forward to reading the others very soon. Escape - Angel has been captured by the Gran and is being held captive and forced to breed, or at least keep trying. She and fellow captive Jason are making the best of their captivity, but how long can it last? They are both keeping secrets from one another, and that almost never works out for the best. Jason has promised that an escape is coming and that he is taking her with him, but neither are prepared for what happens when its time to go. Enslaved - This time around Angel finds herself in the company of the Royal Family of Gran. While she finds new allies and even friends, she still ends up at the hands of her captor. Having to balance and translate for two sides is difficult and Angel is still trying to find someone to love her for herself....Heading off to read the next one. Pursuit - Forced to play translator between the Gran and humans, Angel is whisked back and forth across the galaxy. She has stolen moments of peace here and there with various people, but her heart lies with Captain Cesar, her pirate lover.

Concubine: Titillating! Great world building, great characters. Eroticism with a great plot. The aliens are intriguing, strange and driven by unknown forces. Cannot wait to read the next installment to find out what happens next! Escape: Sensual tension is thy name. Following along with the story line, the main character has escaped her captivity at the cost of her lover. She runs the gamut of emotions and falls for her lover's brother who is an upgrade in the sex department. Too bad they get caught at the end and have to negotiate for their lives. Impatiently waiting for the next arc in the story. Does Angel get to stay with Cesar or will she be subjected to the Captain's special sex that

she has become addicted to? Enslaved: Angel is a genetically engineered human female with abilities beyond the normal female human. She strives to just belong and to obtain her freedom. In Enslaved, we get a more in depth look at the Gran, alien Catlike species. They are not as dark and twisted as a race as the Captain's activities would have us believe. Will Angel be able to pull off the trading agreements she has promised on both sides? Will the Emperor of Gran find a way to free her from the Captain? Will Cesar beat him to it? What does Angel do next? Pursuit: Angel is on a mission to find love and happiness. Too bad being a slave to the Gran is interfering with that pipe dream! Cesar is finally confronted with some truths about Angel and her history, at first it seems like he can't handle the truth, but when he realizes that he could lose her once and for all, he steps up to the plate. Rollick on the other hand, knows exactly what he wants and fights for the right to keep Angel for himself. Who will win Angel in the end? Will it be Cesar who she lost her heart to?
