Experiment: I needed to find a job very badly. I have several skills that make me an excellent candidate for various jobs, but I kept "tanking" on the interviews. There was a job that I had been scheduled to interview for, at a place that had a reputation for being very hard on interviewees. I

really wanted the job and didn't want to tank another interview, so in preparation for the interview, I performed the Operation described in "On The Day of Your Interview" prior to going to the interview. Results: I was tanking interviews because I would get nervous and forget things. I was equally nervous during this interview, but strangely I felt a sense of euphoria that made the interview very enjoyable. I didn't forget a thing, and as a result I impressed the daylights out of my interviewers. The experiment was a big success. I look at all magical Operations as "experiments", because I believe in applying scientific methods to them. This was one experiment that was wildly successful. A skeptic could probably say that this success was due to psychological changes caused by my belief in the ritual. That skeptic would be mostly incorrect. As I said: I use scientific methods in testing and evaluating magic. If anything, I had real doubts that the magic would be effective. I approached the entire book the same way I have approached other magical Operations -- with skepticism. This book is straightforward and easy to understand. There are no "frills" in the text, just information that is very useful and grounded in good Western magical paradigms.

Do not be fooled by the simplicity of the magic in this book. This is the real thing. As a practitioner of the Magical Arts for about a decade, I can tell you that this stuff is legit. I can reasonably deduce some of the sources for this magic, but how, what I would consider Adept level and "results-oriented" magic could be distilled and simplified so as to be easy and safe enough for a beginner to have success with, is FAR beyond my learning. In other words, this magic WORKS, although I'm not sure why or how it does. It WILL manifest (!) as so many glowing reviews for Mr. Brand's work can attest. As a disciple of Cornelius Agrippa, Eliphas Levi and the Grimoiric tradition of old, I am utterly skeptical when it comes to modern magic. I despise Crowley, and Wicca, while fun, is just too fluffy with way too many bizarre and loopy assumptions made. I don't do Chaos magic, and I never touch adversarial (Satanic/Luciferian) magic. And don't get me started on all the new age piffle and con-artists who promise and don't deliver that you're bound to find out there. This and any of Damon Brand's books are none of the above. In fact I love the fact that his magic transcends arbitrary labels like "black" or "white" (or any other color) magic. And thankfully there is no Pagan or New Age indoctrination involved. (nothing against Pagans or New-Agers) Just simple Magic. So how do I know it worked? Like I said, I am skeptical, but a fellow Magus/friend of mine, one much more learned in the field, swore by Damon Brand's system. So I tried it. I used the system outlined in this small book on the behalf of someone I know who had been out of work for almost a year, suffering some of the most obnoxious bad luck I had ever heard of... and it manifested within 3 months.
