Customer Reviews

This is Melody's NEW book, not to be confused with the older (and much smaller) version. This is about 8 X 14" in size and on high-quality paper. It is a 2008 publication and must weigh a good 20 lbs (not sure-just a guess), and it is 965 pages, with a few extra blank pages for notes. Melody says it is the Last Testament and Grand Finale in the "Love is in the Earth series. A culmination of 25 years of work, this book covers over 1400 minerals/crystals/rocks, with over 1400 photographs. For fans of Melody's work, this book is terrific. It is like a stone bible. The book begins with several pages of "thank you" acknowledgements. A FOREWORD follows, then CONFIGURATION explanations (e.g. The Asterated star crystal-explanation), the ELIXERS/ENERGIZING LIQUIDS/STONE OILS (explanations), MINERALS WHICH NEVER NEED CLEANSING (list), NUMERICAL VIBRATIONS

(explanation), MASTER NUMBERS (explanation), SIMULATED and SYNTHETIC MINERALS (explanation & list), CHEMICAL ELEMENTS (explanation and intro to a Table in appendix C), ASTROLOGICAL SIGNS (explanation), PREPARATORY METHODOLOGY (e.g. finding and awakening crystals), PRACTICAL APPLICATIONS (e.g. treating food and plants), ADDITIONAL DEFINITIONS (e.g. each charka explained). The stones begin on page 57 and continue through page 870. Again, there are over 1400 stones, crystals and minerals, each with a color photo and nicely written explanation. Melody begins with colors, chemical composition, hardness, location, metaphysical properties, and ends with the numerical vibration number. The quartz section alone goes from page 603 to page 680! She has also included little black arrows on some of the pictures to point out specific types of markings, inclusions, etc., such as on the Record Keeper Quartz.

Today's review is on Love is in the Earth, The crystal and mineral Encyclopedia, the lite fantastic and the last testament, by Melody. I had heard about this book before it was actually released. I had been an avid follower of Melody's work, the work this woman was doing had changed my life. I was so excited about the new book coming out, I pre-ordered. Prior to this release, all of Melody's work was compiled in several different books. These books line my book shelves and are ratty from wear and tear. I knew that this release was to put all of that work, plus her newest and latest all in one book! No matter that it weighs somewhere around 10 pounds. What I was most excited about with this release, was that the stone articles would now have pictures with them. Melody's earlier works are text, with pictures being an entirely separate book, so this was a big step in convenience. As a crystal healer, reading about what a stone does with no picture is expected, it is something we must learn. But to collectors, they want to enjoy the richness of the photos, the personality of the stones and the pride of the photographer in showing us a side of reality that most of us miss. This was an exciting opportunity to now have all of this glorious information and pictures in one place! I had driven to Ohio for the weekend, to attend a crystal surgery workshop at FourWinds Academy. I didn't want to pay postage on this book, which was a little stiff, so I had Vivien hold my book until I could pick it up in person. Oh, the suspense. It was sweet.
