Customer Reviews

An awesome addition to Werewolf the Forsaken, Night Horrors gives you story hooks and antagonists that can be slid into most any game. There are also a couple new gifts, rites, and merits that could come into play should your werewolf characters look hard enough. Overall I love the book, I ordered it from and it even got here a day early! It's definitely a "must buy" for those who are running their game and are coming up short on ideas, there are at least a dozen different antagonists with their own back-story and interesting quirks... I know I'll be throwing one or two into my game shortly.

This is an okay book maybe great for the gamers. Me, I was just looking for the pictures and NO REAL PICTURES OF WEREWOLVES EXCEPT FOR THE COVER. There are some scary dudes

with elf ears, but, disappointment. From skimming it looks like there are some good stories???? I don't know. Not worth my money.

I purchased this for my 28 year old son for Christmas - he loved it.
