# Green Man, Earth Angel: The Prophetic Tradition And The Battle For The Soul Of The World (Suny Series In Western Esoteric Traditions)

## Synopsis

Green Man, Earth Angel explores the central role of imagination for understanding the place of humans in the cosmos. Tom Cheetham suggests that lives can only be completely whole if human beings come to recognize that the human and natural worlds are part of a vast living network and that the material and spiritual worlds are deeply interconnected. Central to this reimagining is an examination of the place of language in human life and art and in the worldview that the prophetic religions Judaism, Christianity, and Islam presuppose. If human language is experienced only as a subset of a vastly more-than-human whole, then it is not only humans who speak, but also God and the world with all its creatures. If humans internal poetry and creative imaginations are part of a greater conversation, then language can have the vital power to transform the human soul, and the soul of the world itself."

## Customer Reviews

We can get a clear introductory sense of Cheetham's thesis and arguments in this book from the "Back Cover": "Green Man, Earth Angel explores the central role of imagination for understanding the place of humans in the cosmos. Tom Cheetham suggests that lives can only be completely whole if human beings come to recognize that the human and natural worlds are part of a vast living network and that the material and spiritual worlds are deeply interconnected. Central to this reimagining is an examination of the place of language in human life and art and in the worldview that the prophetic religions--Judaism, Christianity, and Islam--presuppose. If human language is

experienced only as a subset of a vastly more-than-human whole, then it is not only humans who speak, but also God and the world with all its creatures. If humans' internal poetry and creative imaginations are part of a greater conversation, then language can have the vital power to transform the human soul, and the soul of the world itself."While there are many ways to review a book, within the discipline of hermeneutics two ways to understand a text are brought into focus by Gadamer:"The real meaning of a text as it addresses the interpreter does not just depend on the occasional factors which characterize the author .... [I]t is always co-determined by the historical situation of the interpreter and thus by the whole course of history.... The meaning of a text surpasses its author not occasionally, but always. Thus understanding is not a reproductive procedure, but rather always also a productive one." [Gadamer, H. G. (1977). *Philosophical Hermeneutics*. (L. E. David, Ed., & L. E. David, Trans.) Berkeley: University of California Press. P. xxv.
