# The Handbook Of The Navigator: What Is God, The Psychic Connection To Spiritual Awakening, And The Conscious Universe

## Synopsis

THE HANDBOOK OF THE NAVIGATOR gives you the essential, yet powerful, basics of true spiritual awakening. You will learn the process of how spiritual enlightenment happens, what it is and why it is even necessary for life to continue. It demonstrates how the sixth sense is the single missing key to explosive states of enlightenment and personal evolution. IT IS NOT A HOW-TO Unlike Eric Pepin's bestselling spiritual books Meditation within Eternity and Igniting the Sixth Sense, there are no techniques. In this age of information saturation it offers what is now quickly dismissed higher knowledge. To simply engage in activities, methods and techniques without clear understanding of what and why is to be a traveler without a map. If you don't know where you're going, how will you ever arrive? USING THIS MAP, YOU WILL LEARN: What the Navigator is and its link to dimensional consciousness How a higher consciousness is created How the universe uses life to grow and experience How the universe began and created dimensional layers of reality (alternate realities) The purpose of life How you experience as an energy being How God, the Universe, communicates to all living beings The reaction that occurred when the universe began, and how this opposing influences all life and attempts to derail spiritual awakening The greatest skill you can learn to directly 'download' the Universe inside you MORE THAN A GUIDE, IT IS A MANIFESTO Urging humanity to reach for greater truths. To discard outdated spiritual stereotypes that seek only constant feel-good gratification and numbing bliss, yet produce little true growth. It defines vital ingredients that, when missing, makes spiritual awakening as unlikely as winning the lottery while it should be as easy and natural as breathing. PUT THE PIECES OF THE 'ENLIGHTENMENT PUZZLE' TOGETHER Discover why past lives are forgotten, how your brain controls and filters your perception to block spiritual experiences, and how to harness the power of your greatest ally, the 'Navigator', on the path to awakening. Its final secret reveals the consciousness within the universe, God, how it relates to you and, ultimately, how to become one with it.

## Book Information

Paperback: 262 pages

Publisher: Higher Balance Publishing; 1 edition (December 2, 2004)

Language: English

ISBN-10: 0975908006

ISBN-13: 978-0975908006

## Customer Reviews

This book is not the path to enlightenment for the cost of a book. It tries, with simple language, to point out that we all have to find the answers to big questions ourselves. We have to listen to our inner voice (called the "Navigator" in the book) to help us find our way along the path to greater spiritual understanding. The author also heavily relies on metaphors to get his point across. I have read the book three times over a period of 10 months. Each time I have gained a greater appreciation of the knowledge contained in the book. Some of the knowledge can only be understood when the student is at a place of greater awareness. I disagree that the book is a sales pitch for an expensive course of CDs that Eric Pepin also sells at his website. Yes, Eric has other teachings available, but I believe the book stands alone as a tool to awaken people to start their own spiritual journey by whichever path they choose. I also believe that the path to higher consciousness does not come by reading books alone. A person must also do the work (meditation, reflection, life style changes...)

If you are a fan of the Star Wars movies or the Matrix movies then you will love this book. It deals with "The Force" (what it really is and how to use it) and reality as we know it and how to access multiple dimensions. Personally it explained a lot of things that my Hindu texts could not. I loved "Autobiography of a Yogi" and wanted to learn how the guy bent reality and used ESP but if you study Hindism or ANY religion or philosophy, they don't, won't or CAN'T teach you any of that. The Handbook of the Navigator covers all that and more. It will wake up that little kid inside you that's excited again because FINALLY someone has proved that the FORCE is real and you can use it, if you'll do it. DO IT!

For me - this book was like being stuck on a conference call for 4 hours. You know the kind? The kind that could have been handled in 3 minutes if everyone would refrain from yakking and feeling the need to talk on and on and on.... Just when you think something interesting might be said.....wait for it....nope. Wayne Dyer has a knack for just taking information that others have

written and re-hashing it in his own words. But Wayne has insight and actually adds content between the Chapter Headings. For me - This was uncomfortable filler upon filler. If this is your very first book ever on the subject then it may well be a great source of information. I, like another reviewer, after forcing myself into the later chapters - hey at that point I was too far in to stop - felt after reading this that it was just a marketing tool being used to hook people into buying a meditation kit, cd pack, course or something. Let me sum it up. You are a part of something bigger. Learn to meditate so you can connect with it. Just so happens we sell a meditation course, "The next step is yours, what are you waiting for"! Yes that is a quote from the final pages. Enjoy it if you buy it, maybe it's what you are looking for. I recommend Gary Renard, The Disappearance of the Universe.

Finally! I found the answers I've been searching for my whole life. This guy actually knows what he is talking about. The Handbook of the Navigator makes perfect sense. I have read several books about how to have spiritual breakthroughs and achieve enlightenment but nothing has ever delivered like the Handbook. Once I started reading I couldn't stop! I read the entire thing in one night. It's like I was literally starving for the knowledge. Eric Pepin answers all the impossible questions you've always wanted to know. What is the meaning of life? Do I have a higher purpose? Does God exist? How was the Universe created? And much, much more. He doesn't give you shallow or broad answers or make it cryptic so that you are left trying to decipher and find the meaning behind it all. He thoroughly explains everything in such a beautifully simplistic way that you can't help but see the truth in it. I had so many 'A-ha' moments while reading this. If you are seeking direction on your spiritual journey then wander no more. This is the book for you! Truly AMAZING! A definite MUST READ!

The Handbook of the Navigator is by far the most compelling book I have EVER read! I found this book at a time in my life when I needed something to free me from the burdens and mundane feeling I had in my heart. I always knew something wasn't right with how I felt, how this world seemed to be through everyone else around me. I knew there was something more but I kept looking for it in all the wrong ways.... Then one day I found this book and it started to free me in so many ways and still does to this day. The layers and depth of what is written helps you understand the true essence of your "ISness". The true essence of the universe, The true essence of God. It will start to break the chains of what society has programmed you to believe and allow you to see yourself for what you truly are. The beautiful being that is truly boundless. If you are questioning reading this book all I can say is just give it a chance and see if it can do for you what it has done for

me.
