Customer Reviews

I want to have children so I'm getting ready to educate myself in being a great mom. I didn't have parents who loved each other so I grew up in a broken home but I refuse to continue the circle. I feel confident that one day with help of books like this I can coach my mommy skills to a better relationship with my children

Book is very true.. I saw parents being bossy n commanding .. This definitely help those parents awake n change the way they talk to their kids in a nice way. I agree that don't command but ask!

A perfect book for busy moms with only time to read only what you need to know then get started right away putting the techniques to work.
