Earth Angel Realms: Revised And Updated Information For Incarnated Angels, Elementals, Wizards, And Other Lightworkers

Synopsis

Learn about the newest Earth Angel realms in this revised and updated edition of Doreen Virtue's™ best-selling book *Realms of the Earth Angels* (formerly titled *Earth Angels*). In addition to chapters about Incarnated Angels, Starpeople, Wise Ones, and such, readers will learn how to identify the newly discovered realms—Cherubs, Atlanteans, Aladdins, Gallactic Angels, and more—all of which are described in detail, including their patterns with respect to personality, relationships, physical characteristics, and lifestyle. Members of each realm receive guidance as to how to fully enjoy their unique qualities, as well as how to focus upon their life purpose.

I loved it definitely better than the first two books. This book starts out with information from *Earth Angels* and *Realms of the Earth Angels* since that is the case I am going to get rid of both of them. Because this book is the only book you need to have. This book includes more information on Incarnated Angels, Incarnated Elementals, Star people, and Wise Ones. Updated information on the core realms and information on new realms such as Aladdin Genies, Mystic Angels, Merpeople and more. I wish this book had been out while taking the realm reader's course it would have helped me out a lot. Glad I have the book now to help me remember information regarding the realms. A really great reference book to have especially if you are a realm reader. Knowing about the different realms is important it helps you know more about your life purpose and how to relate more to others.

It's amazing how after reading this book, I am so much more aware of who people really are (even if they don't realize it) and I know how to approach them and communicate with them because of their personality traits. I love this book! It's a must read for everyone!

Will definitely be re-reading again and again. This book offers much needed insight for people struggling to find answers in a world that can seem so cruel!!

I purchased this book after becoming a Certified Realms Reader by Doreen Virtue. It is a good reference book with a fair amount of information. However, I found it lacking in certain areas. I only wish that it had explained whether or not new reincarnation affect people in different way. It does not talk about "new humans" or "new elementals" and how they would act versus ones that have been around longer. I wish it gave more attention to how this knowledge could help you in your own metaphysical practice like spiritual therapy.

I loved this book! It really helped me to understand the different realms and help me figure out where I fit in!

It sounds quite ridiculous. I believe in supernatural beings but the description she gives sounds like creatures from Disney movies. She describes cheribium as little chubby baby angels. That's how they are stereotypically shown in pictures. But by reading the Bible and other angelic texts, cheribium aren't chubby little babies. That's one example. Her descriptions of magical creatures are just childish and stereotypical. Not very believable. But it is an easy and enjoyable read. Not something to be taken seriously.

Although similar to the first edition, this book is much more helpful, due to the addition of new realms. I own both books and am grateful to have them in my library.

I have been a disciple of Doreen Virtues for as long as I can remember. Her books, cds, Oracle cards, fairy cards and Angel cards have helped me through some really trying times when I have felt unappreciated and worthless. I read her first two editions of this book. I have to say that this is the most comprehensive book, yet. It is also so much fun to read about all of the different realms; what physical traits each process, and what their purpose on Earth is. She states that they are

discovering many more (are there any true humans left on Earth?). I felt like the incarnate Angel realm was me, but the Leprechaun was so totally ME! I always had a special affinity to those. She talks about at least 6 different types of fairies, mer people, starpeople, witches, wizards (Gandalf, I am being serious), Aladdin genies, knights, and so much more. She did mention that she may hear a lot of negative things from nonbelievers; but she is the one with a PhD who knows more than they could ever debunk. This is one fantastic book that I am going to pull out and read over and over again if I am unsure of my place in this world. I love it and Doreen inspires me so much.*Thank you to NetGalley and Hay House Publishing for allowing me to read this book, for free, and to let me give my honest review.
