It is amazing to me how much information is put into the pages of this book. I would need pages to describe all that I learned from this inspirational book. First off India is the country with the highest

amount of followers of Hinduism. The religion is a belief in doing good for others to enrich ones own life and perhaps accumulate the good karma needed to reincarnate into a better person, or to achieve Moksha, the absolute spiritual knowledge. One of the ways to follow the path to spiritual enlightenment is by reading The Gita, which is basically 700 verses that are songs of the Lord. I find Hinduism, closely related to Buddhism, in teaching to love yourself and to love, respect and help your fellow human beings. The author did an incredible job with relaying information on this religion and making it one I would love to see more people have an interest in. Our world needs much more love, understanding and enlightenment. Thanks to this author for opening eyes and hearts to the possibilities.

This book is well-named. It's not a lengthy, exhaustive survey of the vast topic of the Hindu faith and culture. It is a quick, interesting and fun overview of Hinduism for someone just beginning to take a look. I loved it. And while it is brief and the author keeps it simple for beginners, it does touch on many important concepts.

Shalu did a wonderful job explaining the foundation of this fascinating religion. Being a world traveler, I've been exposed to Hinduism many times but have yet to learn the basics. I only picked up a neat story or origin here and there but had been intrigued and wanted to dive into Hinduism full bore, to understand its teachings in greater detail. Reading her in-depth, helpful book I now have a better idea behind the customs of this religion. Shalu gives a fabulous breakdown of Hinduism so you can more easily embrace its rituals. If you are hungry to find out more about Hinduism or need a guide for delving into it this is definitely the book for you.

Hinduism is the third most popular religion in the world and has more than 750 million followers. As you learn about Hinduism, you will find that it is a very unique religion. Unlike most religions, there is no declared founder of Hinduism. This book gives us a basic idea about Hinduism. Also, author has given details about important Hindu religious books, Hindu festivals and a study about differences and similarities between Hinduism and Buddhism.

I am not a Hindu but I have a keen interest in comparing other religions to my religious understanding. I was delighted to discover that Hinduism's beliefs in Creation, Karma, souls and reincarnation are very similar to my own beliefs. I certainly recommend this book to anyone who is interested in acquiring a better understanding of Hinduism. Congratulations Shalu Sharma on a

wonderful presentation.

I was raised Lutheran but in college I took a religions of the world class and found Hinduism to be fascinating. I always felt like I wanted to know more and I stumbled on this one night. Great easy to understand and informative.

I was always fascinated by Hinduism, only exposed to it through western eyes (mainly through my yoga class). In this book, Shalu Sharma summarizes the important beliefs and rituals of Hinduism. This book is a great way to start you off if you are interested in Hinduism, as it gives you a good summary but also refer you to different resources to get more in-depth details about each section of the book.
