\*STAR WARS Miniatures "AT-AT Walker" COLOSSAL PACK\*This Imperial AT-AT Walker stands 13" tall. I was suprised after measuring it that it was only that tall. It seems much taller. I absolutely love the detail and the shading/battle worn look. It makes an awesome addition to my collection(almost my favorite piece).My only complaint is it's NOT poseable. I so badly want to tweak the legs and head to put it in my favorite position, but sadly I cannot. That's the only reason I took off 1 star. It's a minor complaint since it's so neat and for the price it really can't be beat.I'd also like to praise .com. I received this in 4 days after I ordered it through them(that's including the weekend). I highly recommend going straight through them. However be warned, if you're not wanting to open it I must tell you that mine was. It was re-taped to look as though it had never been opened. I don't know if did it or if it was returned and the buyer did it. Fortunately for me I'm not the kind of collector that wants virgin boxes. I just take the figure out and display it anyway. I'm sure it

was a return and probably a rare situation for .The price is right and shipping was low, too. This will easily be a highly sought after collector's item. Jump on it now while the price is low.

This is a very nice miniature to have even if you don't play the miniatures game.

The AT-AT is a must have for any Star Wars Miniatures Fan. This thing is huge! It is highly detailed, and is made of rigid plastic so it is much more durable than the standard mini. I am very pleased.

I was very impressed at the quality and detail of this model.It's fantastic and was delivered to me on time and at half the price I could buy it for in the UK...thank you .com

The AT-AT looks great on a shelf, but as far as a supplement to the Star Wars Miniatures game, it is lacking.Wait until they can't sell them then snatch them up for less.
