I Smell Smoke (Book 2 Of 10) (The Supernatural Bounty Hunter Series)

Synopsis

The unexpected continues â Just when Sidney thinks sheâs gotten a handle on things, she finds herself at odds again with her annoying and unappreciative supervisor, Cyrus Tweel. To make matters worse, thereâs been no talk about the Black Slate or the whereabouts of Smoke, leaving her in the dark and feeling more isolated than ever. During a stakeout with Cyrus, odd things begin to emerge. Black Suns and oddly familiar children begin to show up. The Drakes fingerprints seem to be on everything sheâs involved with. Just when Sidney begins to fret her new duties and doubt her peers, Smoke shows up in a suit looking as gorgeous as ever. Captivated by him at first, itâs not long before they butt heads over the next Black Slate assignment. A mysterious woman called Night Bird. Timing is everything, but family troubles emerge a day before Christmas Eve, when Sidneyâs sister, Allison goes missing and a mysterious stranger shows up at her parentsâ home. Reluctantly, she agrees to take Smoke to her parents with her. On the way, a semi-truck, owned by Drake, runs them off the road, totally the Interceptor. And thatâs just where the story begins, not to mention Sidneyâs first meeting with Fat Sam and Guppy, strange graveyards and more diabolical deaders. Will Sid and Smoke get closer or will the wicked powers that be force them apart?

SMOKE and agent Sidney are a great team who are beginning to trust one another. At least Agent Sidney is beginning to show a romantic interest in SMOKE. I like them as a team. But who and what is SMOKE. Read On.

I like the chemistry between Sidney and Smoke. The weird evil beings are a hoot. I'm ready for Smoke to get out of jail and really be Sid's partner in more ways than one. I'm really enjoying this series. I love how I can find awesome little gems like this to read on my Kindle. Can't wait to read the next book!

The second book in the series takes off right where the first left off. I smell smoke has it all action/adventure/deadends and our newest villain (spoiler alert) harpies! Sidney and Smoke are an amazing duo. I can't wait to read book three!

Already half way in this book and I love it. I had to give a laugh because one of his bad guy characters has my last name Harlow. Lol. I gave a 5 star, because the intense, detailed events are awesome...Cannot wait until book 3...Cherie Harlow

This is a great new series. It's a bit like X-Files meets Blacklist. I enjoyed reading but the story could have been better developed and be a full length 250+ page novel. I hope future books are fully developed.

Another fine outing for Smoke and Sid. The characters begin to grow, although I admit I found Sid a bit juvenile at times and wanted to slap her. I recommend this book for its writing - it's a fast easy read without being repetitive or degenerating into silliness. I don't like the way the FBI is portrayed - I'm tired of the Feds being portrayed as villainous liars or incompetents, but it does advance the story line. I would definitely recommend the series as a whole.

I love this series and can't seem to get enough. A FBI agent assigned to a black list with a criminal

for a partner. Amazing how the government uses people and cover up some many crimes. The supernatural element only makes this series better!!

Thank you, Craig, for gifting this book to me! Although this book was also short, it was also a fun, fast-paced read. The bird angle was different and interesting. This story would make a great graphic novel!
