Customer Reviews

This was a very good book - loved the true stories of the paranormal - kept me on my toes - did not want to put it down - loved the book so much that I bought the next book by this author - definitely a five star read!

Another enjoyable collection of stories; I found the "stick men" particularly unnerving and certainly hope I never see any.

Great stories to compare with your own experiences. For those that don't think they can be true someday you may have the opportunity to discover the truth.

Even if you are telling other's stories, please do them the service of editing their stories so they read properly and people don't sound dumb. Please

I really liked the stories in this book. It's a good read for a stormy night. I would recommend this book.
