# A BOOK ABOUT YOU (Timeless Wisdom Collection 187)

## Synopsis

We are all vibration. The world is vibration. The Universe is vibrations. Once you understand this, and the power that the concept implies, you will destroy any limit and limitation. This beautiful book was created by Charles F. Haanel, the author of the Master Key System, one of the most influential books on self help ever written. But, he had another masterpiece waiting. He had this book. A book about you. At birth you received a certain vibration consisting of the combination of ethereal vibrations existing at the moment. This vibration was impressed upon you very much as a note from an orchestra may be transmitted by the stylus of a phonograph to the sensitive wax receiver with every single note and every shade of tone intact. Thus the time of birth determined the nature and intensity of the vibrations which are apparent in your mental, moral, spiritual, and physical characteristics, and these in turn indicate the character, environment, and opportunities which will come to you. This does not mean that you are to flounder in a morass of destructive fatalism. On the contrary, it is simply indicative of the opportunities which will be presented or the temptations which will come; there is no denial of the self-determination or free will. You may use the characteristics given to you at birth, or change them as you will. This book will tell you how.

## Customer Reviews

This is an insightful look, and revelation, of Mr. Haanel. It discloses he is far more than a "New Thought" teacher. While he espouses, the importance of working in harmony with the Universal Subjective Mind (individualized within You as yours) he also depends on some rather esoteric teachings (for Mental thought manifestation purists). This shows itself with emphasis on the Solar Plexus implying chakras, and their stimulation are an important ingredient for successful manifestation. (the Master Key.) This book is really a book or treatise on the effects of Planetary Rays (energies), and their influence over individual character and behavior. There is an old Astrological Maxim "Character is Destiny". He therefore is not a strict "Science of Mind practitioner". He is not a pure Divine Mind devotee as were Mary Baker Eddy (Christian Science), Judge Troward, Ernest Holmes (Religious Science), the Philmores (Unity, Goddard, and so so on. These and others like Neville, are Pure in this philosophy. While I believe this fact is it is ultimately true, we mortals esp. in wealthy material societies, have numerous material claims upon us, and thus much attraction to the "denser" thought forms of matter. Using the higher, and highest material energy forms, such as Astrology, and the bodies own energy fields (chakras, etc), can and are very helpful aids to achieving manifestation of your positive thoughts and desires on this plane!! Astrology is the "bridge" between Pure thought, and the denser thought plane of our temporary existence as a so-called physical entity namely matter appearing to encase, a boundless Spiritual Energy, that is each of us.
