Synopsis

How to Get Your Ex to Open Up and Give Your Relationship Another Chance
The 4 Things Your Ex Needs You to Do to Get Back Together
Breakups can be painful and in an instant, your life can be turned completely upside down. Not many people realize this but it IS possible to get your ex back and create an even better and more loving relationship than before. This book isn't more nonsense about text messages or making your ex jealous. Let's leave all that for the middle school pre-teens. This book is for people who want to get their ex boyfriend or ex girlfriend back. This is for people who want to have the RIGHT tools to get their ex to open up and get them to want to start over and save their relationship. So here's what you need to do to get your ex back. Your ex needs you to do four simple things before they'll even be open to the idea of being with you. When you can do these four things we talk about inside the book, you can clear away all the drama, pain, and history between the two of you when you can get your ex to open up and have a real and honest conversation where you both feel 100% heard and seen by each other. This is what you want, right? These 4 things will work even if: You and your ex were in a long-distance relationship. They've flat out refused to talk to you and won't even respond to your phone calls or messages. They left you for someone else and seem they are in a happy and new relationship. They've told you that they don't think you're both compatible together or that they just don't have any feelings for you anymore. If you take the time to do these four things, you'll dramatically improve your chances of getting your ex back, get your ex to open up and want to start a better and healthier relationship with you. This book is for you if you want another chance with your ex and show them that you are not that same man or woman they broke up with. This book will help you be organically and effortlessly irresistible to them so that they can't get you out of their mind.

Customer Reviews

I really liked this approach to attempting to get your loved one back after a break up. It doesn't insist you cut off contact (which in some situations, mainly my own, would not be beneficial)... Ultimately, you know the situation/person best, even if you are only acting off emotional responses. This isn't one of those books that has a script for you to read to your ex, and it's not about playing mind games and using deceiving psychological tools to play with your ex's head, who would want that anyway? This is a pretty simple guide to working and focusing on yourself to be better equipped to start something NEW with your ex, as opposed to trying to go backwards and fix what is over and done with. Actually, this has great advice that can really be applied in other aspects of your life as well. But at the end of the day, even if it doesn't bring them back to you, I think it'll leave you better off to accept the situation and move on with your life. I'm excited to begin the exercises and implement them in my life. Hopefully it will help with my situation, but even if it doesn't, I have hope again for my future. It's a quick read and I highly recommend it if you're willing to put in the effort.

Clay Andrews is definitely the most reliable professional in the world of "get your ex back" literature. This book is full of precious advice that does not revolve around the idea of changing your personality in order to get your ex back, but around that of recovering your full energy and power so that they will fall in love with you all over again... And even if they don't, at that point you'll be self confident enough to move over. Clay is the best.

Clay Andrews writes with a clear, common sense approach. He gives you tools to make the honest internal changes needed to be a better person if you're serious about reconnecting with your ex. Along with his personal coaching program, website, free YouTube videos, online support group (staffed by live people), Clay and his wife Mika (who have gone through their own painful breakups)

guide you through everything! Starting with the base changes in this book. Definitely a must read!

Initially what made me want to read the book or any of clay's books is to obviously help in regards to my ex however there's more to it than that. The advice in the book is really great for any relationship, being friends or family or coworkers. At the core it's about focusing on yourself and transforming that into the best version of yourself. By doing that it'll just make all your relationships better and if getting back together with your ex happens too then that's just a very big bonus! Read all his books! They're amazing!

Clay Andrews advice is very helpful. An emotional connection is key to hopefully having success in getting your loved one back. I truly learned a lot from Clay's books and videos, that helped me understand the terrible mistakes I made and helped me become a better person/lover.

Clay's books are simple and totally worth while. If I don't get back with my ex, well, that will suck. But I am much better prepared for my next relationship, no matter who it's with. Clay's advice on centering yourself, living in the moment, and allowing has been invaluable to me. Get all of Clay's books - then expand your knowledge of mediation with Jon Kabat Zinn or Thich Nhat Hahn or somebody. Thanks, Clay!!

Clay lays out a simple outline to transform yourself to a more appealing you. Even if you are not successful; the information provided is very helpful in transforming you to an improved version of you.

How I wish I got this book year ago.. It could have saved my previous relationship.. but no regrets reading this one right now...it gave me the knowledge on ho to handle my relationships moving forward...
