What a great story!!! Well written with awesome characters and a new twist on the dead rising and feasting on the living. The third book in this series really gets your blood pumping! If you enjoy this type of genre, it's a must read! I'm actually sad that this story is done? Any chance at another book? We can only hope. If not, this story really ties it altogether in the best way possible! An excellent

read! Thanks STF, can't wait to read Floodwaters!!!!

Talk about fast-paced! I wish I hadn't read 42 books between the previous and this book, because it picked up right where #2 left off. There were some really interesting new bits in this installment. I would have loved, well... A Little More. But I can understand how/why it was written the way it was. A nice finish to the series.

This series was going well until the end. The ending seemed very rushed and incomplete. One minute the hero is building his team then we have multi year jumps and literally a couple chapters later the story is over. I was disappointed at the ending.

Purchased this yesterday and read it through the night to the end!! This series is amazing! Great characters and storyline and excellent writing!! Definitely recommend to my fellow readers!

Good book except the ending felt rushed as if the author was tired of the story. A lot of good stories are ruined this way.
