# American Ethnicity: The Dynamics And Consequences Of Discrimination

## Synopsis

American Ethnicity is a brief text that provides an accessible introduction to the dynamics of racial and ethnic relations. Key concepts and theories are summarized, and the authors develop a simple theoretical framework that guides the presentation of data on each of the prominent ethnic groups in America. As a result, this book examines each ethnic group from the same perspective, allowing students to compare the dynamics of discrimination against African Americans, Native Americans, Asian and Pacific Island Americans, white ethnic Americans, and Latinos. ## Customer Reviews

Had to get the book for a summer class, but over all it was a great read. It was pretty easy to read, as as easy to understand. Which was great since this was an online class. I would read this again on my own.

GREAT GREAT BOOK! This book has taught me so much about the different ethnicities I feel like I was learning it for the first time. Opens your eyes to the many injustices minorities continue to face today that they faced 200 years ago. I rented this book, but I may purchase it in the future. Definitely recommend this one.

Rented this book and it came in used condition. some writing in the book and highlighting. I deffinetly recommend renting this book if using it for a college class, which is what i used it for. Its way cheaper then buying the book brand new and worth it if only using for a short period of time.

This was thought provoking like Origins and Destinies because of the class I took where you had to read them.

I got this book for a College class I was taking, it was an ok book. it is very easy top read and straight to the point. so if your professor is assigning you this book then don't worry and be happy.

I am happy with the price, however the condition of the book is a little worn. Overall, it meets the need I had so I am happy.

The book it self is fine. The price, however, is criminal. It is a small book, only about 300 pages and a decent chunk of book is references, glossary, and pictures. Would not of bought it, If I didn't have to. But comparing the content and size to a comparable book on the same subject, criminal. No one to justify the cost.

Great for class. On time delivery. Easy to use
