## Customer Reviews

I've only recently discovered this deck, and am now in the process of studying and working with it. I find that it keeps opening and deepening for me, and is now definitely a new favorite. What I love about it, so far, is the level of abstraction. Of course everyone feels differently about cards, and different people will bond with different decks. I'm finding that I get frustrated with the traditional decks that are very straight-forward in representation -- like the traditional decks, such as the Waite, but also some of the more recent decks, like the one by the excellent Barbara Walker. She is such a font of knowledge, and her books are essential, but her deck (for me anyway) is just too straight forward, relying on simple one to one representation, too figural. With a deck like this, I feel a bit limited, as if I'm not being given enough "wiggle room," something like that. I don't mean that I want to invent my own interpretation of course, just that when the images are so completely

defined, it does control even your vocabulary to a certain extent.(I wonder if anyone even knows what I'm talking about!) So the Haindl deck is very exciting for me. It feels full of energy because of the level of abstraction -- these cards do not pin down the meaning so much as "set it free," that's how it feels to me. They open themselves to your interpretation, because the images are so fluid -- it's more than possible to see a whole range of different things in these cards, to let interpretations shift according to the context of different spreads, and therefore to form a very personal and intimate and also evolving relationship with them. I am very happy to have found them, and look forward to learning more about them.
