Landfall: The Ship Series // Book One

Synopsis

5,000 years into a Mission meant to last 100, both the Ship and its society are on the verge of collapse. Launched as the last gasp of a dying Earth, the Ship set out to preserve humanity by seeding the universe with one billion colonists. Generations of Crew, trained to be either Flight or Marines, have protected the Ship and its civilian cargo from the constant threat of alien violence. Fifteen-year-old Zax has always had trouble fitting in with the other cadets, but he's finally on the cusp of attaining his dream and gaining entrance to the Pilot Academy. Catching the eye of the Flight Boss and winning him as a mentor should guarantee Zax a top spot, unless the shocking discovery he makes along the way destroys not only his career, but also the Ship itself.

PRAISE FOR LANDFALL: "Mr. Aubin has created an engaging and completely believable world and story that sucks you in and doesn't let go!" - Reviewer "This guy knows how to tell a story!" - Reviewer "Engaging story and characters, hard to put down!" - Reviewer "Enjoyable, Engaging and Meaty" - Reviewer "This book was so much fun! The world is cool and engaging." - Reviewer "My fifth grader read this book in almost one sitting. She loved it so much, I read it myself. This book rocks." - Reviewer "Compelling sci-fi--even for those who aren't always fans of the genre" - Reviewer

Customer Reviews

I feel compelled to leave a review for Landfall by Jerry Aubin. Why, you may ask? Well, this freshman entry isn't perfect. There's a few moments where quite honestly I had to suspend my disbelief, or pause and excuse away a few items (ship designed for hundreds of years still functioning after 5000? The crew views the colonists as almost subhuman?) So why, you may also ask, is this a 5-Star review? Well, Mr. Aubin has created an engaging and completely believable world and story that sucks you in and doesn't let go! You immediately understand that Cadet's lives revolve around their position on the Leaderboard, and everything they do jockey them to a better position and career. That any human society would fall into classes or castes, but what if an insular world was specifically created with the best-and-brightest as the leaders (Crew) and all their offspring is told they're the best of the best... constantly? Add in a heavy dash of mystery and "What-If" and you end up with a book that meets my basic criteria for receiving 5 stars... I couldn't stop reading it. I had to finish it to see where the story was going! I had to know how it wrapped up and what happened to our characters! Oh, and immediately upon finishing it I got on and purchased Book 2! While this falls definitely into the YA field in terms of writing, it's briskly paced and not too washed as to be squeaky clean. There's undertones here that add to the question of where some relationships may be headed, with just enough bullying and death to be a commentary on our current social development as well. Perhaps, for me, one of the strongest things going for this book is it's length. While I enjoy the current trend for uber-short, \$0.
