Customer Reviews

contrary to what it may seem, this book is not a revised edition of the last (paperback) storyteller's handbook. it is an all new book containing lots of all new information, including frequently asked question section. While the book isn't the easiest read, it contains a great deal of valuable information, including some plot springboard ideas. Weather your a veteran storteller or a newbie, i would highly reccomend this book as an addition to your storytelling refrence library.
