For Religious Equality*

A Transcendentalist

Synopsis

My spirit witnessed the universe stretched out like a vast expanse with spirits engaged in mental interaction, much like master craftsmen contemplating the creation of a new frontier. My spirit observed the entire history and the evolution of the universe and peoples varying perceptions of Jehovah, Allah and God; as if in a fast-forward film. My spirit witnessed the beginning of life and then physical rational life in the universe, and the bonding of the first two souls that was the beginning of a spiritual unity. My spirit witnessed the development of mankind and man's first perception of God from the story of Adam & Eve. My spirit witnessed Abraham & Moses, their quest into spirituality, their interaction with God and the beginning of Judaism. My spirit witnessed God's interaction with Jesus and his life and physical death. My spirit witnessed the beginning of Christianity & the senseless killings in the Crusades; also God's interaction with Muhammad, the beginning of the Islam faith & the Arab struggles. My spirit witnessed the senseless New York Twin Towers tragedy of 9-11-01. My spirit understood that our life on earth was to prepare us and to give us examples of the hereafter, that everything is progressive and accumulative. We exist on earth to accumulate experiences of feelings, the beauty of every organism that surrounds us, the landscape that adds to our perception and then, when our life on Earth ends, we would begin our next spiritual journey. I understood that we should live our life to its fullest. One hundred years from now, almost every single person alive today will have died. Several billion people wiped off the face of this earth. Our life is but a blip on the radar screen of time. We are the most important person responsible for whether our soul will live to attain continuity with God. Here we learn how to intertwine with a community, there we can experience anything that the imagination can perceive. Envision yourself as a spirit that is uninhibited by any resistance or external influences; you can travel to any star or planet instantly, explore the beauty of the universe, and still be in sync with God. As an example: Imagine the most advanced form of Virtual Reality that can access a super-computer and place you in whichever setting you desire; you can play with the animals, be with your loved ones, listen to the greatest opera, stage or musical performances, or simply relax next to a bubbling brook and enjoy the scenery. You feel no pain, despair, heartache, or negative emotions. Some will say that my personal experience of Oneness with the Holy Spirit of God is nothing but a dream or a vivid imagination. It doesn't matter whether you accept or totally reject my story, what does matter is that we evolve to a point whereby we can encourage open-minded people to offer solutions on how our religious beliefs can be brought into the 21st century. My concept is that God is a Spiritual Unity, a Oneness, a structured government-like Spiritual Collective. God is a Master Planner who guides the development of the universe. God is the progressive and accumulative Spiritual Intelligence of the

universe. God is the united peaceful coexistence of the souls of many of our forefathers, past prophets, and all who have lived righteously. Cultures change with time and God has always been the same but our perception of God will vary with time.
