# Making Maps, Third Edition: A Visual Guide To Map Design For GIS

## Synopsis

Lauded for its accessibility and beautiful design, this text has given thousands of students and professionals the tools to create effective, compelling maps. Using a wealth of illustrations--with 74 in full color--to elucidate each concisely presented point, the revised and updated third edition continues to emphasize how design choices relate to the reasons for making a map and its intended purpose. All components of map making are covered: titles, labels, legends, visual hierarchy, font selection, how to turn phenomena into visual data, data organization, symbolization, and more. Innovative pedagogical features include a short graphic novella, good design/poor design map examples, end-of-chapter suggestions for further reading, and an annotated map exemplar that runs throughout the book. New to This Edition \*Expanded coverage of using mobile digital devices to collect data for maps, including discussions of location services and locational privacy. \*New and revised topics: how to do sketch maps, how map categories and symbols have changed over time, designing maps on desktop computers and mobile devices, human perception and color, and more. \*Separate, expanded chapter on map symbol abstraction. \*Additional case studies of compelling phenomena such as children's traffic fatalities based on race, the spread of tropical diseases, and the 2012 presidential election. \*Many additional color illustrations.

## Book Information

Paperback: 293 pages

Publisher: The Guilford Press; 3 edition (August 2, 2016)

Language: English

ISBN-10: 1462509983

ISBN-13: 978-1462509980

Product Dimensions: 7 x 0.7 x 10 inches

Shipping Weight: 2.1 pounds (View shipping rates and policies)
