## Customer Reviews

This is a great step to learn about auras and how it can be beneficial if being practice often. I feel great the moment I start reading this book because I feel every ideas being discussed and how it can get rid of the negative energy and replace it with positive one. Auras cannot be seen but one thing I have learned in this book is that even it cannot be seen, with proper concentration and training will lead to great focus where one can feel it flowing inside the body and control it the way we want.

I don't know much about the subject before reading this book. After hearing my yoga teacher mentions chakras and auras week after week, I finally decided to learn a little more, so I got this book. The book basically talks about the energy that we give off have direct affect on our life. And how cleansing our auras will enhance our positive energy. Very fascinating subject and very beginner friendly too.

I have been looking for this kind of book for releasing negative energy in your body and replace it with the new and revitalizing auras that will change your body, mind and soul in a more postive way of life. This book has an over all approach when in comes to achieving positivity in life.

I may say great book to read before we start the week because this book can cleanse and boost our energy to face better the start of our week, the MONDAY HABIT. I hate Mondays, and I never seen any beautiful auras throughout the day. And with the help of this book, I tend to realize and learn so
