For meditation and mindfulness I read many books earlier but to know about chakras this is a great book and very interesting one. The information described in this book is very useful to balance the life. Enjoyed reading.

As far as information for beginners - not bad at all, I've read much worse ones, where authors have no clue what they are talking about. I've also read indian books on chakras (more advanced) and this one has correct information about the subject without getting sidetracked. If you need more info than just basic - seek other books.
