

Synopsis

SECOND EDITION: REVISED, UPDATED AND EXPANDED Because the JonBenet Ramsey case is so very complex, so very mysterious, with such a superabundance of both evidence and suspects, and so many assumptions, opinions, and contradictory and/or questionable testimony, it is especially important to exercise the greatest diligence in tracking down the facts and not allowing oneself get too distracted by all the rest. If we attempt to account for all the many bits and pieces of evidence, all the various opinions, both expert and inexperienced, the many various suspects, no matter how likely each one seems to be, and the dubious testimony of the Ramseys themselves, who might well have had good reason to lie or dissemble, we will find ourselves in a hopeless morass. If, on the other hand, we stick with the facts, and logical inferences based on these facts, leavened with a healthy dose of simple common sense, then, as it seems to me, a clear picture emerges. The 2nd edition of this book has been revised to eliminate redundancies and long technical discussions. The new edition also contains updated material, an additional chapter, and three new appendices.

Customer Reviews

I have followed this fascinating case since it hit the news back in 1996. I have been all over the board suspecting just about everyone possible. It's just that kind of case. Any theory I read convinced me who the murderer was until, of course, I read another theory. However, I never suspected the person who I now feel is the real murderer nor did I give much thought to why I overlooked this person for so many years. Then I came across Doc G's blog. Doc is the ONLY person who explains why the real murderer was overlooked and how and why this person has been able to escape suspicion, for all these years, by the police, the District Attorney's Office, investigators, and the public. Doc's theory is the ONLY theory that makes total sense, and he explains it in detail. He leaves no stone unturned. He is a genius when it comes to examining the evidence and the FACTS of this case. And, once you read his theory and examination of the facts, it becomes a very simple matter pointing the finger at the real murderer. It's actually not that complicated. Doc G is an excellent writer and this book will satisfy anyone who has ever had even a slight interest in this unsolved case. Like another reviewer stated, I now feel satisfied knowing in my heart who committed this horrible crime. I no longer feel the need to read other theories or look at all the evidence over and over again. Once Doc G explains it all, there is no need to look anywhere else. My only complaint I have about this book is the section regarding the handwriting comparisons, and my complaint stems from the fact that this book is in Kindle version. Because of that, the diagrams and pictures were hard to see.
