# Advances In Modelling And Clinical Application Of Intravenous Anaesthesia (Advances In Experimental Medicine And Biology)

## Synopsis

Since its launch in 1998 the European Society for Intravenous Anaesthesia (EuroSIVA) has come a long way in providing educational material and supporting the research and clinical application of intravenous anaesthesia. After the first two annual meetings held in Barcelona and Amsterdam in 1998 and 1999, three other successful meetings took place in Vienna, Gothenburg and Nice in 2000, 2001 and 2002. Next to these main meetings, starting in the year 2000, a smaller winter meeting has been organised every last week of January in Crans Montana, Switzerland. Both the main summer and the winter meetings breathe the same atmosphere of sharing the latest on intravenous anaesthesia research in the presence of a friendly environment and good company. Since the first meetings the educational tools of EuroSIVA have increased in quantity and technical quality allowing digital slide and video presentation along with the use of the computer simulation program TIVAtainer during the speaker sessions and the workshops. Furthermore, EuroSIVA now exploits a website [www.eurosiva.org](http://www.eurosiva.org) that allows for continuous exchange of information on intravenous anaesthesia, the TIVAtainer, the EuroSIVA meetings and online registration for these meetings. The EuroSIVA is currently engaged in friendly contacts with the Asian Oceanic Society for Intravenous Anaesthesia (AOSIVA), the United Kingdom Society for Intravenous Anaesthesia (UKSIVA), the Korean Society for Intravenous Anaesthesia (KSIVA), the European Society of Anaesthesiology (ESA) and the International Society for Applied Pharmacology (ISAP).

## Book Information

Series: Advances in Experimental Medicine and Biology (Book 523)

Hardcover: 280 pages

Publisher: Springer; 2003 edition (February 28, 2003)

Language: English

ISBN-10: 030647705X
