Customer Reviews

Australian author Matt Rogers makes his literary debut with the first book in a projected series he calls the Jason King Thriller Series, and if ISOLATED is a sample of building a memorable character that will be durable through many volumes, then welcome Matt and welcome Jason King! Matt is young, lives in Melbourne, Australia, and has elected to make writing his life career. Of note, then next two volumes are already completed. Matt understands the importance of grabbing the reader's attention in the first pages and in the Prologue he offers a terrified man who has just

witnessed a heinous deed escape to his tiny home only to be followed and executed as he is trying to alert the police. Clutching the phone in his grip, it sunk in that he had stumbled upon something sinister, a secret that those responsible would kill to protect. He found himself plagued by the unshakeable feeling that he was in way over his head. We're there, very much in the presence of evil and Matt keeps us tuned to his tale as he introduces his very well defined main character. The synopsis provided distills the scope of the story well: On a cold night in Australia, two construction workers driving along a deserted mountain road are gunned down inside their vehicle. The killings are fast. Efficient. An assassination, carried out with expert precision. The only witness to the crime is a man resting by the side of the road.
