Customer Reviews

I absolutely love this series. I have been hooked since season one. In this season we follow Pyra and the fellow warriors as they explore their planet for the first time. Filled with passion, adventure and a touch of humor Ms. Scott takes you on a whirlwind tour of planet Uoria and its people. Along the way we meet new characters and new secrets to be answered. I highly recommend this series, you will not be disappointed.

This was an amazing series and it's been an absolute pleasure to read. The storyline is interesting, imaginative and quite captivating, drew me in from start to finish. I really loved all the characters so much. You couldn't help but fall in love with them. These books were filled with action, humor, and a few tears along the way. Such an awesome read. Definitely worth the read. Loved it!

Uoria Mates II is an extension of series I. Had trouble putting each book down; sometimes couldn't stop at the end of one and had to start on the next one. Ruth Scott has a great series going and I don't know how she can continue to set III, but she does.

WOW!!! So I have this saying, "reading is my drug of choice." Ruth Anne Scott I'm addicted!!!! Ok so Pyra was a bit aggressive, understandable. Lynx was my favorite this time around. Loralia rocked!! Loved that she stood up to the BS! So now that I'm done I'm kinda fiending for my next fix of Uoria!!!!

With each book you learn more. The world is imaginative and creative. The characters you can't

help but feel that their a live. You want to explore their world with them. I've been hooked on this series since the first one. I know you'll love it too.

I have read all 20 Uoria Mates books. I am obsessed! I read the 2nd 10 books straight. I couldn't put it down. I was reading while cooking, watching TV, and well in the bathroom lol. I grew attached to the characters and I can't wait for what comes next!

I love this set of books. They grab you into their world as soon as you start reading and you feel like your there experiencing everything with them. I believe a great book is one that will take you away and make you forget everything around you. The problems, the hurt, the pain everything and your transported to become the main character. When a book makes you cry, laugh, feel what they are experiencing then its a hit. If you want an amazing read get this collection and kept on reading.

This series is perfection! I do wish it was a bit longer at certain times so I could get a bit more detail about certain things but it doesn't change how gripping the story line is. One of the best parts to me is the whole mate part because if we are honest women want more than anything to believe there is a possibility that there is a person out their in the universe made for only ourself. So, I think it adds to the romantically inviting draw of both series. Another thing I love is the depth of the story. There is just so much potential and so many possibilities that there could be enough stories to go on for decades and I hope Scott keeps going because this a become a serious addiction for me.
