This is your all in one guide to amulet and talismans including dream catchers and just about
everything! This book really covers is all including how to make amulets which I thought was very
cool you can really save money and have some fun at the same time! I defiantly recommend this

book to anyone interested in Amulets and Talismans!

I am quite fascinated by this so called dreamcatcher. It seems like a really magical item to me. Although I don't really believe in stuff like these, I still can't stop myself from getting interested in wanting to know more about it. So when I came across this book, it immediately caught my interest. I decided to try reading it and I was glad I did. It actually quite contained well-written contents. It got me entertained and amazed at how people, especially the ancestors, deeply believed in the magical things found in this world. The "how to make" contents included here were pretty tempting to try.

My wife loves everything connected with talismans and amulets. She asked me to purchase this book, and she really loved it. Now she spends evenings reading it. She recommends it for everyone who's passionate with it, like she is.

This book is totally inspirational. When I first glanced through it, I thought there were several methods I wouldn't be able to do, but looking through it more thoroughly I was so inspired and motivated and thought that I could really do any of it that I wanted to! It was on my Wish List for a long time and I'm so glad to have it now!!
