Customer Reviews

In this supplement for Prometheans, you get a closer look at some of the history about Prometheans, a closer look at milestones, Prometheans able to give birth to Scions. Another chapter in the Water of Life Chronicle. You have a brief section that covers how a Promethean might interact with other Supernaturals and gain milestones. The best draw to this book is the new Refinements and Transmutations. It isn't anything truly outstanding.
