Rating the MALLEUS MALEFICARUM is an exercise in frustration. One cannot "enjoy" this book; like MEIN KAMPF, one reads it for its historical importance. This book should form a part of every thinking person's library as a warning beacon, if for no other reason that it is a seminal textbook on the inhumanity of humanity. First written in 1484 by the Friars Kramer and Sprenger, (and reprinted endlessly), the MALLEUS was immediately given the imprimatur of the Holy See as the most important work on witchcraft, to date. And so it remains. The MALLEUS MALEFICARUM is a compendium of fifteenth century paranoias, all the more frightening for its totalitarian modernity. ("Anything that is done for the benefit of the State is Good.") In form, it is a "how to" guide on recognizing, capturing, torturing, and executing witches. In substance, it is a diatribe against women, heretics, independent thinkers, romantic lovers, the sensitive passions, human sexuality, and compassion. "Vanity of vanities" indeed. In writing the MALLEUS, Kramer and Sprenger claimed to be doing "God's work"; these men, and those who followed them worshiped only their own arrogance. Read it and Be Afraid, my friends. Forming a portion of every working law library for 300

years, there is no estimate of how many women and men were put to death through the mechanism of this benighted book. Some historians estimate that the numbers may run into the millions. The text is rife with "caselaw" examples of witchcraft, some of which are clearly delusional and some downright silly, or would be, if they hadn't ended in gruesome deaths for the accused.
