Customer Reviews

Book was a hard read not easy to follow I felt like it was written to only be read by a math genius it was confusing and hard to understand. I did not like the way this book was written or hope it flowed.

A collection of research articles placed into one book. You could find them all online by look at Criminal Justice Journals for free. Some of the articles were well conducted, others not so much. You can easily point out their flaws, and how they would have critics or that their research could not be reproduced again. More than half of the book was not used in the class I had purchased it for, so I had no need to read the rest.

This textbook is the dullest book ever!!! This textbook gave me a headache every time I had to read a chapter. It doesn't explain critical things in the simplest form and I find the chapters too wordy to be saying too much of nothing.

This will appeal to students who are interested in cj research and those in the criminological field however won't appeal to those who are thinking of going into police, corrections, and other field jobs that don't require much research...

This book has been through a lot. Coffee stains all over. Hard cover is damaged on all four sides. Writings in all the pages with underlines with pens. Highlighter of all colors have been used. This book should not have been rented to people. I took pictures upon receiving it for records.

It's nothing to write home about. It's pretty much what it says it is-a book about research methods specific to criminology. It gets the job done. Besides, we all know the only reason you are on here ordering this book is because you have to for a class. So stop reading the reviews and get on with it already.

This book was in good condition when I got it it just too longer that they said to get to me so that made it a little annoying but over all good quality.

If you MUST have this textbook for a class I have to say it was pretty boring. The chapters are long and the information is repetitive. Unfortunately this book is not interesting but I will say that it was affordable! I bought it for my Criminal Justice Research Methods class and it was significantly CHEAPER than what my on-campus bookstore was selling it for. I would highly recommend ordering textbooks from . The textbooks are in great condition (I bought mine NEW) and the price is great!! The delivery was also on time which was great. I would not recommend this specific textbook if you want to read it for your own pleasure but if you HAVE to get it for a class then you won't find it at a better price anywhere else.
