Customer Reviews

Looks like I get to be the first to review this book, so let's start. I've been hesitant to pick up any Paranormal book after the disaster that was Ghosts of Colorado but I have been looking forward to this one for awhile so I decided to give it a shot. It was a very fun read, nice to see some experiences other people had I have personally experienced as well, its always interesting to see patterns in the paranormal field maybe one day we will be able to use this to better the investigation methods. It was a fresh take too for the reason that outside of Erica's experiences there are those experienced by Paranormal groups and every day people. Now Erica hasn't edited them in any way so while your reading you get to travel the globe and I thought it was so cool to be able to read them straight from the people telling them, also got a bunch of different writing styles which I also thought was a plus. Overall I recommend this for any lover of the Paranormal field, this is Erica's first book

so I can't wait to read future installments, she has a bright future as an author. so thanks for the refreshing take on the subject and getting me back to wanting to read about this topic! Overall I rate this at 7.9/10.0 or the same as Zak Bagans book I am Haunted! Worth the read.P.S. Six of the stories are from our group :)

Amazing book filled with awesome stories! If you are looking for a good collection of true ghost stories, this is definitely one to have in your collection.

Interesting, well-written and almost always scary stories. I love true ghost stories and was happy to find a new collection of never-before-published encounters.
