Customer Reviews

After my "born again" atheist phase, I was intent on discovering/uncovering God for myself. I read all sorts of books (see my other reviews for some of what I have read) and all of these books satisfied my intellectual curiosity for a more "personable" God. I wasn't interested in a new religion, I was interested in knowing that a God of Love could love me, as well. I decided to start meditating for two reasons. (1) I always admired people who could somehow get still, centered, and focused and brought a clear sense of attention/intention to everything they did and (2) maybe through meditation I could form a deeper inner "knowingness" that God did exist within me and around me. This was one of the first books on meditation that I not only read, but devoured. I enjoy Eknath Eswaran's simple

approach to meditation. If you are looking for a more complicated approach I am sure you will find many books that will fit the bill. Simplicity is an art. Simplicity is very difficult for a confused mind to understand. Simplicity is the essence of genius. So I studied Eswaran's words on meditation, but I also took them to heart. When I was first learning to meditate, I often broke my practice into "bite-sized chunks". Three minutes here, five minutes there, another two minutes here, maybe four minutes there. I celebrated every moment I could get still. I relished in every moment I could get quiet. I wish I could say that I mastered meditation in six short weeks but I don't think anyone ever quites "masters" meditation. It does have an accumulative effect and eventually I was able to get still for twenty minutes (with my longest session being two hours) but meditation is so unlike anything I have ever done.
